Personal Data

Location: Konstanz, Germany
Date of birth: 23.11.2000
Nationality: China (PRC)
Willing to relocate

Languages

Chinese: native
English: C1
German: B2

Core Skills

Python, PyTorch, OpenCV
Computer Vision, ML
Detection, Segmentation
ROS 2, Linux, Docker

Strengths

Structured problem solving
Clear documentation
Team communication
Fast learning

Profile

M.Sc. graduate in Computer and Information Science with completed thesis and oral examination. Focus on computer vision, deep learning, robotics-related tools and real video/sensor data. I enjoy building practical AI pipelines and evaluating them carefully.

Experience

09/2025 -
12/2025

Working Student - E-Commerce / Data Analytics

dreifive AG, Konstanz

- Supported customer data analysis and reporting in an e-commerce context.
- Updated Shopify pages and prepared documentation for AI-based product tagging.

05/2024 -
09/2024

Research Assistant

University of Konstanz, Department of Computer and Information Science

- Worked on camera calibration and ROS 2 based tools for research on collective fish behavior.
- Supported experimental setup, data processing and technical prototyping.

05/2022 -
08/2022

IT / Research Assistant Intern

China United Network Communications Corporation, Zhongshan Branch

- Contributed to a WeChat platform app for drug rehabilitation and SRS documentation.
- Worked on data visualization and software requirement analysis.

Selected Projects

2026

Master Thesis: 3D Object Pose Detection in Exercise Videos

University of Konstanz

- Developed deep-learning based RGB pipelines for object pose estimation and tracking in exercise videos.
- Worked with detection, segmentation, camera calibration, temporal smoothing and motion-capture based evaluation.

2025

IEEE VAST Challenge Visual Analytics System

University of Konstanz - published IEEE VAST Challenge report

- Built graph-based analysis views for influence, collaboration and temporal patterns in a large knowledge graph.
- Responsible for Neo4j queries, backend integration, timeline visualization and network graph layout.
- Tech stack: Neo4j, FastAPI, React, D3/sigma.js.

[IEEE Xplore: \[ieeexplore.ieee.org/document/11298668\]\(https://ieeexplore.ieee.org/document/11298668\)](https://ieeexplore.ieee.org/document/11298668)

Personal Data

Location: Konstanz, Germany
Date of birth: 23.11.2000
Nationality: China (PRC)
Willing to relocate

Languages

Chinese: native
English: C1
German: B2

Core Skills

Python, PyTorch, OpenCV
Computer Vision, ML
Detection, Segmentation
ROS 2, Linux, Docker

Strengths

Structured problem solving
Clear documentation
Team communication
Fast learning

Selected Projects

2024

VR/MR Interaction Prototype

Unity / Meta Quest

- Developed VR/MR prototypes with physics simulation and multiple manipulation methods such as pinch and grab.
- Connected interaction design with real-time 3D environments.

Education

2023 - 2026

M.Sc. Computer and Information Science

University of Konstanz

- Master thesis and oral examination completed; preliminary overall grade 1.7; final certificate pending.
- Focus areas include Deep Learning, Computer Vision, Visual Analytics, Robotics, Algorithms and Software Systems.

2019 - 2023

B.Sc. (Hons.) Computer Science and Technology

BNU-HKBU United International College, Zhuhai, China

- GPA 3.39/4.00, President's Honour Roll and Dean's List.
- Foundations in programming, algorithms, databases, operating systems, distributed systems and software engineering.

Selected Study Focus

Selected focus: Deep Learning for Computer Vision, AI for Autonomous Robotics, Bio-inspired Mobile Robotics, Computer Graphics, Document Analysis, Algorithm Engineering, Randomized Algorithms.
